Lviv Academy of Commerce
Master's degree in Marketing with honors

NATALIIA VYRSTA
Frontend Developer

I'm a front-end developer with 1.5 years of commercial experience working with **Vue.js** and **Solid.js**. I've also created web applications using **React, Next.js**, and **TypeScript** outside of my job.
My focus is building responsive, user-friendly websites with attention to detail. I'm always learning and growing as a developer.
To see more of my work and projects, visit my personal website: **nvyrsta.is-a.dev**.

WORK EXPERIENCE

Frontend Developer, **FixIQ Pro**   **June 2023 – Present**

- Develop and maintain advanced features using Vue.js and Vuex for efficient state management.
- Implement scalable micro frontends using Solid.js to enhance system modularity.
- Build responsive and dynamic user interfaces based on detailed design mockups, ensuring cross-platform compatibility.
- Perform code reviews, adhering to best practices and maintaining code quality.
- Optimize API integrations and manage Vuex state for seamless application performance.
- Implement internationalization (i18n) for multi-language support.
- Collaborate in team meetings, contributing to project planning and feature discussions.

PERSONAL PROJECTS

Project: **Shopping UA**
Technologies: **Vue.js, Firebase, Tailwind CSS, i18n**

Description:
Shopping UA is a fully functional e-commerce website for clothing. It features a smooth shopping experience with cart functionality, size selection, and product favoriting. The site includes detailed product pages, brand sections, and visually appealing sliders for product previews. Additional features include breadcrumbs navigation, an intuitive search bar, and more for enhanced user experience.
